

City of ELGIN

We have reviewed the expedited review options as outlined in OAR 660-19-095(3) and have selected the following option:

✓ OPTION (a). Delay to the next cycle.

Note: Under this option, jurisdictions must submit a letter indicating how the requirements of OAR 660-19-095(3)(a) are met. This letter should be prepared after consultation with your field representative and is not due at the same time as you select this option for grant purposes.

 OPTION (b). Request that DLCD complete the review.

Note: Under this option, no formal letter is required. Returning this form (signed by an appropriate official) will initiate the process.

 OPTION (c). Follow the complete process.

Note: Selecting this option will initiate the processing of a grant offer. Remaining steps in the process are outlined in the initial notice you received from DLCD.
